

3) When I Look Up to You

When I look up to you
I see someone thinking of me
When I look up to you
I see that you'll always love me

Someone who can show the way
In all you say and do
That's what I see when I look up to
you

I look up, early in the morning,
When we start our day
I look up, in the afternoon,
When we work and when we play

I look up, in the evening,
When we're home again
I look up, at night,
When it's time to tuck me in

When I look up to you
I see someone thinking of me
When I look up to you
I see that you'll always love me

Someone who can show the way
In all you say and do
That's what I see when I look up to
you
